PURE PIZZA PERFECTION.

For simple, delicious and enjoyable outdoor cooking, there's almost nothing better than a perfectly prepared pizza. With the elegantly minimalist Morsø Forno Spin, it's even easier and more satisfying than ever. The rotating pizza stone makes it simple to achieve an evenly baked crust without having to turn the pizza around by hand. And as an oven specially designed for making pizzas, Morsø Forno Spin quickly reaches 400° C, which is optimal for pizza baking.

INTENSE DESIGN. SIZZLING FOOD EXPERIENCES.

Wok food is all about intense heat, aroma and lots of flavour! The sensual pleasure of the sizzling ingredients in the searing wok and the quick movements of sauteing, seasoning and serving is exactly the cooking and culinary experience that the new Morsø Vulcano Wok Burner is designed to give you. With its Nordic design, Morsø Vulcano is a brand-new addition to the well-known Morsø outdoor range, which now also covers Asian cuisine.

WELCOME TO THE WORLD OUTDOORS

Since the early years, innovation has been a key driver to everyone at the Morsø Foundry. In turn, several ground breaking products and building principles has seen the light of day on the beautiful Danish island of Mors. In common with other iron foundries Morsø created the principle of convection, that on the brink of the 1900's set an all new standard for the effectiveness of heating your house using a wood burning stove. Years later, during the 1950's, when central heating paved it's way into most homes, Morsø launched the open fireplace as another new way of bringing warmth and cosy comfort to the Danes. With the launch of the first cast iron BBQ in Denmark, we were aiming to let the

Danes enjoy their long summer nights in the garden, with great food and warmth. Today, as well as back then, summer nights could be anything from endless, calm and warm, to the ones when time or circumstance is not suited for the big setup, even if the desire for cooking great food outdoors is still there. For that particular reason, the following pages will present the new Morsø Forno Multi, which is the only product on the market that can be fired with either gas or firewood. This along with being a fantastic pizza oven, BBQ and outdoor stove, will open up a world of possibilities to turn even more summer nights into something very special..

MORSØ COOKERY BOOK.

We love food. And we love people. But, most of all, we love when people come together around food.

Over the years, we have come across many people who, each in their way, have enriched our small universe of Danish designed grills and outdoor products which are precisely intended to enable the meeting between people and really tasty food. In our new cookery book we have harvested the best from such meetings, collecting the recipes, anecdotes, and food experiences they have provided. While stock lasts, the book can be bought on morsoe.com.

MORSØ BALCONE.

More and more people live in blocks of flats, and balconies are popping up everywhere in the cityscape. But living in the city shouldn't mean that you can't have a good outdoor barbecue experience.

Open fires are often prohibited on city balconies, and unless you're the lucky owner of a big balcony, a traditional grill will take up a lot of the scarce outdoor space. With the Morsø Balcone electric grill, we've developed a grill that lets everyone – including city dwellers – enjoy the unique sociable pleasure of an outdoor barbecue. By using electricity rather than coal or gas, and optimising the design for this exact purpose, we've developed the ideal balcony grill with a modern look for a modern lifestyle, combined with the authenticity and honesty that Morsø's grilling products are known for.

In 1853 the young N.A Christensen left his job as an accountant to start an adventure involving an iron foundry. An adventure which started in a factory building in Nykøbing Mors. Despite tough competition from the foundries in the larger cities, it would turn out that a small collection of smiths, lathe and wood workers, created an icon which managed to reach far beyond the city it was created in. An icon created through innovation, built on design, quality and of great craftsmanship, and which therefore always stand comfortably in any home whether in Denmark or abroad. An icon we all know as Morsø.
